

# LOUISIANA

## Heart of the Southern Automotive Corridor

**Says Tim Daniels, President and Owner of Jireh Plastics & Assemblies, LLC:**

"Jireh Plastic & Assemblies, LLC, a Tier 2 automotive assembly supplier, is located in Bastrop, Louisiana. At Jireh, Lean Manufacturing (Kanban System), and the Five "S" systems are utilized to achieve production leveling. In the manufacturing world, "nothing is predictable" (i.e. customer/production orders, changes, national weather conditions and unexpected events), but at Jireh we have a more productive, safe, clean, organized and more efficient workplace and by accomplishing this, we pass cost-savings to our customers."

"Our collaborative work with the Award Winning Northeast Louisiana Economic Development Regional Organization has been beneficial to marketing Northeast Louisiana and to the recent record job creation in a great place to work, live and play. Their regional efforts and Louisiana's "Fast Start Training Program" are a deal closer every time."
